## INSTRUCTIONS

### « Choose the year and start day

Note: If you choose Monday as the start day, you will need to modify some of the formatting in the calendars (bold vs. non-bold days).

**Publishing your calendar.** If you want to publish a school calendar, you must ensure that it includes the following note and URL in the footer: Calendar Templates by Vertex42.com - <http://www.vertex42.com/calendars/school-calendar.html>

**Converting the calendar to a PDF.** To publish a school calendar on your website, you should first convert it to a PDF. The best way to do that is to print to a PDF driver, or in Excel 2010/2013 you can go to Save As and select PDF.

**Changing the color scheme.** You can change the color scheme by going to Page Layout > Themes > Colors.

**Background colors.** The background color for the weekends and blank days are controlled using conditional formatting. To edit the color, go to Home > Conditional Formatting > Manage Rules and select "This Worksheet" from the drop-down box.

**View the Print Area.** To view the current print area, first view the Print Preview (Ctrl +P) then return to the Home tab. Or, go to View > Page Break Preview. The print area will become highlighted with a dashed line. To choose a new print area, select the cells you want to include and go to Page Layout > Print Area > Set Print Area.
